

ICP750

Ideal for ramp operation with rapid temperature changes during incubation, breeding or storage.

With the help of our model selection, with dimensioned model sketches and extensive technical data for download, you can find the right cooled incubator ICP for your needs. For small volumes and for work predominantly in the proximity of the ambient temperature, the Memmert Peltier-cooled incubator is recommended. Flexibility and technical features of our appliances meet all possible needs. Put us to the test!

Setting temperature range	-12 to +60 °C	
Working-temperature range		
Setting accuracy temperature	0.1 °C	
Temperature sensor	2 Pt100 sensors DIN Class A in 4-wire-circuit for mutual monitoring, taking over functions in case of the control of the contr	
Control technology		
ControlCOCKPIT	TwinDISPLAY. Adaptive multifunctional digital PID-microprocessor controller with 2 high-definition TFT-colour displays.	
Language setting	German, English, Spanish, French, Polish, Czech, Hungarian	
Timer	Digital backwards counter with target time setting, adjustable from 1 minute to 99 days	
Function SetpointWAIT	the process time does not start until the set temperature is reached	
Calibration	three freely selectable temperature values	
adjustable parameters	temperature (Celsius or Fahrenheit), fan speed, programme time, time zones, summertime/wintertime	
Communication Documentation Programming	programme stored in case of power failure AtmoCONTROL software on a USB stick for programming, managing and transferring programmes	
Trogramming		
Trogramming	AtmoCONTROL software on a USB stick for programming, managing and transferring programmes via Ethernet interface or USB port	
Safety		
	via Ethernet interface or USB port	
Safety	via Ethernet interface or USB port mechanical temperature limiter TB, protection class 1 according to DIN 12880 to switch off the heating	
Safety Temperature control	wia Ethernet interface or USB port mechanical temperature limiter TB, protection class 1 according to DIN 12880 to switch off the heating approx. 10°C above nominal temperature over- and undertemperature monitor TWW, protection class 3.3 or adjustable temperature limiter	
Safety Temperature control Temperature control	mechanical temperature limiter TB, protection class 1 according to DIN 12880 to switch off the heating approx. 10°C above nominal temperature over- and undertemperature monitor TWW, protection class 3.3 or adjustable temperature limiter TWB, protection class 2, selectable on display additionally integrated over- and undertemperature protection "ASF", automatically following the setpoint value at a preset tolerance range, alarm in case of over- or undertemperature, heating is	
Safety Temperature control Temperature control AutoSAFETY	mechanical temperature limiter TB, protection class 1 according to DIN 12880 to switch off the heating approx. 10°C above nominal temperature over- and undertemperature monitor TWW, protection class 3.3 or adjustable temperature limiter TWB, protection class 2, selectable on display additionally integrated over- and undertemperature protection "ASF", automatically following the setpoint value at a preset tolerance range, alarm in case of over- or undertemperature, heating is switched off in case of overtemperature, compressor in case of undertemperature

no drying-up of the load caused by the cooling device due to separation of thermal jacket from interior

energy-saving use of CFC-free cooling/heating system (refrigerant R134a)

highly efficient automatic defrosting system

Heating concept

Cooling

Defrosting

Standard equipment

Works calibration certificate	for +10°C and +37°C	
Door	inner glass doors	
Door	fully insulated stainless steel doors with2-point locking (compression door lock)	
Internals	2 stainless steel grid(s), electropolished	

Stainless steel interior

Dimensions	w _(A) x h _(B) x d _(C) : 1040 x 1200 x 600 mm (d less 33 mm for fan)
Volume	749
Max. number of internals	14
Max. loading of chamber	200 kg
Max. loading per internal	30 kg

Textured stainless steel casing

Dimensions	w _(D) x h _(E) x d _(F) : 1224 x 1950 x 784 mm (d +56mm door handle)	
Installation	on lockable castors	
Housing	rear zinc-plated steel	

Electrical data

Voltage Electrical load	230 V, 50/60 Hz approx. 1200 W	
Voltage Electrical load	115 V, 50/60 Hz approx. 1200 W	//0,

Ambient conditions

The distance between the wall and the rear of the appliance must be at least 15 cm. The clearance from the ceiling must not be less than 20 cm and the side clearance from walls or nearby appliances must not be less than 5 cm.	
15 °C to 28 °C (up to 34 °C with limited temperaturerange)	
max. 70 %, non-condensing	
max. 2,000 m above sea level	
2	

Packing/shipping data

Transport information	The appliances must be transported upright	
Customs tariff number	8419 8998	
Country of origin	Federal Republic of Germany	
WEEE-RegNo.	DE 66812464	
Dimensions approx incl. carton	w x h x d: 1330 x 2150 x 1050 mm	
Net weight	approx. 249 kg	
Gross weight carton	approx. 319 kg	

Standard units are safety-approved and bear the test marks

LABORATORY EQUIPMENT MAINTENANCE, REPAIR, CALIBRATION AND SALES

Established in 1987, Henderson Biomedical is the UK's leading laboratory equipment sales and service provider. Our knowledgeable team can provide you with excellent sales advice on a range of different types of laboratory equipment including centrifuges, refrigerators, freezers and heat sealers.

Henderson Biomedical is also able to provide you with first class after-sales service and calibration of your laboratory equipment. We are an **ISO 17025 (UKAS) accredited calibration test laboratory** and our team of Field Service Engineers cover the whole of the United Kingdom.

Please contact us for more information on the types of equipment we supply and the different after-sales services we can offer.

Henderson Biomedical
